

ANNOUNCING THE 2020 AquayaLEARN FELLOWSHIP PROGRAM FOR KENYAN STUDENTS

FELLOWSHIP DETAILS

Fellows will be based in Aquaya's Nairobi office and receive the following support:

- Coverage of travel expenses (including one-round trip to Nairobi and all research related travel)
- A stipend for lodging and additional living expenses

ABOUT AQUAYA

Aquaya is a non-profit research organization dedicated to safe, equitable, and sustainable water and sanitation in developing countries. Our mission is to improve public health by reducing the burden of waterborne diseases. Aquaya is based in Nairobi, Kenya and San Francisco, USA.

PREFERRED QUALIFICATIONS

- 1. Experience with spreadsheet software and applications:** Can you use spreadsheet programs like Microsoft Excel to organize and analyze large data sets?
- 2. Experience with database software and applications:** Are you skilled in working with database software solutions such as Microsoft Access?
- 3. Experience with website development software:** Have you built and maintained websites?
- 4. Experience in using programming languages for data analysis:** Do you know how to conduct statistical analysis in R or Stata?
- 5. Experience with GIS software:** Can you apply GIS software packages such as ArcGIS for mapping and spatial data analysis?

WITH SUPPORT FROM: THE NEWMAN'S OWN FOUNDATION

Are you an MSc or PhD student enrolled in a Kenyan University and specializing in data visualization or the analysis of large data sets?

Do you have a passion for applying science and technology to solve fundamental development challenges?

Are you looking for an opportunity to collaborate with leading researchers dedicated to safe drinking water and better sanitation in Africa?

If you answered yes to all of the above, apply now for a three month research fellowship with The Aquaya Institute.
